We are glad to hear that Kermit Paulette is recovering from an operation at the Virginia Baptist Hospital, Lynchburg, Va.

ADDITIONAL FUNDS FOR FARM HOUSING

President John F. Kennedy recently asked Secretary of Agriculture Orville L. Freeman to take immediate action so that an additional $50 million can be made available to the Farmers Home Administration for farm housing loans during the balance of this fiscal year.

This additional allotment will come from a $450 million authorization made by the Congress for the five-year period beginning July 1, 1956. About $257 million of this authorization is still available, so that the $50 million allotment made will require no additional appropriation, nor is it intended that any increase in the personnel of the FHA or other administrative expenses will be required.

Heretofore a total of $40 million had been allotted for use of these loans during the fiscal year 1961. As of January 20, about $28 million had been loaned and loan dockets were being processed for an additional $10 million, thus practically exhausting the funds available for this purpose for the fiscal year. The FHA reports appoximately 4,300 applications on hand and new applications being received at the rate of more than 1,000 a month. Experience of past years indicates that the demand for this type of credit will increase during the spring and summer months. The effect of this additional $50 million allotment, therefore, will be to meet demonstrated need from funds already authorized and with personnel already employed.

To be eligible a farmer must own a farm that will annually produce for sale or home use at least $400 worth of commodities based on 1944 prices. In addition he must lack the resources needed to obtain credit elsewhere and have sufficient income to pay farm operating and family living expenses and meet payments when due on his debts.

The loans bear 4 per cent interest and are repayable over periods up to 33 years.

Applications for farm housing loans may be made at the local office of the Farmers Home Administration, located in the Watson Insurance Building at Farmville. This office serves Appomattox, Amelia, and Prince Edward counties. Hunter P. Evans is County Supervisor. Mr. Evans also has part-time office hours at Appomattox at the ASC office on Tuesday mornings from 9:00 to 9:30 a. m.

NOTICE FROM SELECTIVE SERVICE

Captain Charles L. Kessler, State Director of Selective Service for Virginia, announced that the annual Selective Service College Qualification Test will be offered to college students April 27 at approximately 500 colleges throughout the nation.

The score made on the test is a help to local boards in considering students for deferment from induction for study as undergraduate or graduate students.

Captain Kessler, urged students to take the test.

"The test is for the student's benefit as well as for the Nation's good," Captain Kessler said. "A local board should have full information about a student in order to classify him, including his class standing and a score on this test. A high test score may compensate for low class standing; and high class standing may compensate for a low test score.

"The purpose of student deferments is to give promising students an opportunity to continue to prepare themselves for careers in support of the national interest.

"The undergraduate student who today does not plan on graduate study may change his plans as he nears graduation," Captain Kessler added. "That is the time that a deferment may be most important. That is also the time when a test score may be important in the local board's decision concerning deferment."

Application materials for the test will be availible about the first week of March at the nearest local board office. Students are urged to make application early. The application must be postmarked not later than midnight, April 6. Full instructional materials are issued with the applications.
